Strategies for improving reproducibility

Professor Marcus Munafò
Nathalie Percie du Sert

Strategies for improving reproducibility

- **Research quality**
- **Incentive structures**
- **Open research**
- **UK reproducibility Network**
- **Are there any obvious gaps?**
- **What are the barriers preventing change in practice and how can they be addressed?**
- **We can measure uptake of these initiatives but how to assess impact?**

Home Office

Strategies for improving reproducibility

- No one strategy for improving reproducibility
- Need to address at multiple levels of the system
- Encouraging students and early career researchers to adopt reproducibility practices
- Providing senior support and networks
