9. Images should be submitted as high resolution JPEGs or PNG files no larger than 10 MB. Please keep copies of all your original and resized images safe. If the original file is not received, the image may be disqualified from the competition.
10. There are no restrictions on the type of camera used but it should be noted that part of the judging criteria will be technical excellence and it is therefore recommended that you use the highest possible quality setting on your camera. The original file should be as large as you can achieve with your equipment.

### Adjusting your image

11. The faithful representation of what was captured at the time of the shot being taken must be maintained. Digital adjustments are only acceptable if limited to minor cleaning work (removing dust spots), levels, curves, colour, saturation and contrast work. Sharpening and minimal cropping is allowed. Cropping of over 25% must be declared on the application. To ensure your image can be printed at A2 size for the purposes of exhibition, the longest edges of the image should be a minimum of 2500 pixels, with no interpolation (digital upscaling).
12. Focus stacking is permitted so long as the resulting final image is a true representation of the original scene. The individual images must be captured at the same time in the same location. Should your image be successful, the judges will request all of the original images that make up the focus stack.
13. Image stitching, where two or more photographs with overlapping features are stitched together to create a bigger final image, is permitted so long as the resulting final image is a true representation of the original scene. The individual images must be captured at the same time in the same location. Should your image be successful, the judges will request all of the original images that make up the stitched image.
14. Adding or removing elements into/from the image is not allowed. Pictures that have been digitally manipulated beyond the terms of this rule will be disqualified. The judges reserve the right to exclude any image they believe may have been excessively treated so as to alter its authenticity.
15. Black and white images are permitted. Dodging, burning and toning of these are allowed. Scans of prints are not permitted.

### Subjects and Ethics

16. The competition asks photographers to put the welfare of animals first and to safeguard their environment and that they do not do anything to injure or distress animals or destroy the environment in their attempt to get their photographs. If the Organiser or the judges suspect that a picture was taken using cruel or unethical practices, the entry will be disqualified.
17. All photographers will be asked to declare that the images they are submitting comply with the competition rules and that the picture information they provide is complete, true and accurate.

18. Shortlisted entrants will be notified in September and, subject to the judge's reassessment, informed if they are finalists by 1st October.
